

The Association of Old Crows Garden State Chapter Presents a Lunch-and-Learn Event: *Field Based Risk Reduction*

***Presenter: Dr. Richard H. Wittstruck
Associate Director,
Field Based Experimentation & Integration
US Army, CERDEC***

This presentation will discuss the revitalization of C4ISR/CEMA field experimentation and integration to the acquisition and operations communities. Fifteen years of war has led to a streamlined process that brought emerging technologies from the laboratory environment directly to operations theaters with scant characterization and field experimentation. While necessary to meet urgent wartime operations needs, a post conflict transition period now demands rigorous, disciplined and operations relevant field experimentation and integration to ensure Army, joint and coalition capability maturity & interoperability in a limited resources environment.

When: *Wednesday, February 10, 2016 12:00-13:00*

Lunch: 11:30 – 12:00

**Where: InfoAge
2201 Marconi Road
Wall Township, NJ 07719**
